

JUNCTION BOXES FOR LOAD CELLS USED IN SILO, TANK, VESSEL AND TRUCK WEIGHING

Load cell connection problems solved simply and cost effectively.

Thames Side's versatile range of junction boxes includes standard ABS models with/without trimming potentiometers, versions with ATEX certification, built-in lightning surge arrestors, stainless steel options and a version for digital load cells.

Special durable polyurethane 4-wire and 6-wire (with sense wires) connection cable can be supplied in custom lengths for connection from the junction box to the amplifier/instrument.

- 4 or 8 load cell versions
- 4 or 6 wire (sense) connections
- Hermetically sealed to IP66 or greater (IP67 available on request)
- ATEX versions for all zones
- Stainless Steel versions (including ATEX option)
- Optional built-in lightning surge arrestors
- Optional trimming potentiometers
- 5 year warranty
- Robust and cost effective
- Special load cell connection cable is available separately (per metre)
- Version for 8 digital load cells
- INTELLIGENT Junction Box also available
